SUCCESS STORY

Ika wins pioneer youth of Yogyakarta City with Membaur Projects

In 2018, Ika found herself as a beneficiary of the organization Harapan Fian when she enrolled in their education program to continue her interrupted studies. Alongside her fellow young women, she decided to take the initiative to create an alternative source of income. Under the guidance of Harapan Fian, they learned the art of sewing. Ika's dedication and skills enabled her to craft various sewn products such as pouches and tote bags. These products were showcased on Fian's Market platform and even received orders from customers like Mrs. Jacqueline in the Netherlands.

As the years passed, Ika's passion for creating positive change and sustainable solutions grew stronger. In 2023, she embarked on a new venture called "Membaur Projects," a social enterprise focused on upcycling plastic waste and fashion scraps into attractive products. The business not only contributed to reducing environmental pollution but also created job opportunities for marginalized youth, particularly those from the streets. Through Membaur Projects, Ika aimed to empower these young individuals by providing them with skills and education.

Ika's determination and commitment to social entrepreneurship did not go unnoticed. In the same year, she received recognition for her outstanding efforts by winning the prestigious "Youth Pioneer Award" in Yogyakarta City. This accolade served as a testament to Ika's incredible journey from being a program participant to becoming a driving force behind initiatives that brought positive change to her community and beyond. Her story inspired many others to believe in their potential and embrace opportunities to make a difference.

Through the support of Harapan Fian and her own perseverance, Ika's life transformed significantly. From an aspiring student to a successful social entrepreneur, she proved that with determination, skills, and the right support, dreams can be achieved, and communities can be uplifted. Her story is a true testament to the power of organizations like Harapan Fian and the impact of individuals like Ika in shaping a brighter and more sustainable future for all.

CHILDREN INTERACTION:

Fun Activities for Children Mark the Opening of Badran dan Bong Suwung Classes

As the July-December period kicks off, we organized an exciting event for children to celebrate the inauguration of our new office, located just a stone's throw away from the previous one. The event aimed to foster a sense of community and collaboration with the local children.

Various engaging fun games were held to ensure everyone got to know each other better and to create an atmosphere of camaraderie among the participants. The success of this initial event has inspired us to plan more interactive activities going forward, with a particular focus on educational mentorship programs. By engaging in such initiatives, we aim to strengthen its bond with the community and make a positive impact on the lives of the children in the neighborhood.
