

PERIODIC REPORT

Jan-March 2022

www.harapanfian.org

Some of the children who live near us often skip breakfast or lunch. That's because of low awareness of parents about the importance of adequate food and the economic situation of the family.

Cooking

Cooking activities do not only aim to meet the food needs of children. Furthermore, we educate children to get one of the most important basic life skills. By cooking we also practice that boy and girl need to contribute an equal role in domestic work.

 At Badran

Sport is important for children. However, the limited space in the city makes it difficult for children to do it.

Futsal

This program was initiated by the children. They organize with the support of the staffs. The team consist of 15-20 boys. They train regularly once per two weeks. We hope we get support so children can exercise regularly.

 At Badran

Some children do not able to attend in formal school. Harapan Fian support them by getting alternative school called "Kejar Paket". It is recognized equal to formal school

Kejar Paket

There are 5 children who will graduated this year and go to the next phase. Harapan Fian support them by pay tuition fee and conduct regular teaching class. By attend in Kejar Paket, children will have more opportunity in the future.

▶ At Badran

We believe health is people's right. That's why we strive for it!

Posyandu Jalanan

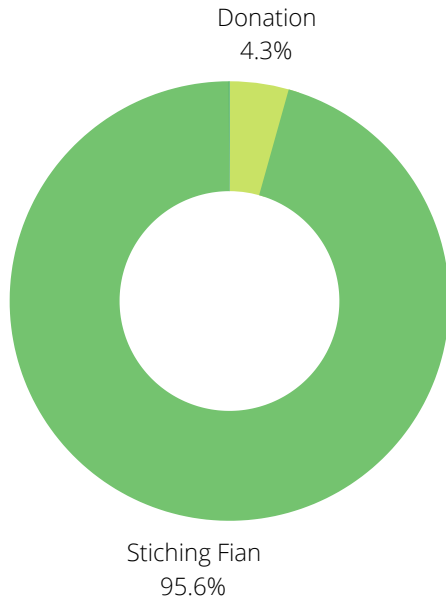

Street people community still facing difficulty to access of public health due having no identity and health insurance. Posyandu Jalanan is health based program that focus on mother and children health. We run the program in 3 location and support more than 30 families.
